National Suicide & Crisis Lifeline

988 offers 24/7 access to crisis call specialists who are trained to de-escalate behavioral health crises. Individuals can be connected to resources such as:

- Same day/next day behavioral health appointments and the Mobile Response Team (MRT).
- If public safety intervention is not required, residents can access services directly via calling, texting or chatting 988.
- Public safety officials can receive support from 988 crisis specialists by triaging a call and/or requesting resources.

In-person Emergency Crisis Intervention

MRT is an emergency behavioral health service that provides immediate response for anyone in Prince George's County who:

- is experiencing a mental health, substance use, or psychiatric distressed crisis.
- may be a danger to self and/or others.
- is unwilling or unable to seek help for themselves.

MRT will dispatch a two-person team to the caller's location for an in-person assessment and intervention as deemed necessary by mental health professionals.

Emergency Crisis Stabilization Facility

The Dyer Care Center (DCC) is the first facility of-its-kind in Prince George's County, MD to provide short-term personalized emergency care to community members experiencing a mental health and/or substance use crisis. The emergency crisis stabilization center also serves the crucial purpose of diverting guests, whenever possible, away from emergency rooms, unneeded hospitalization, and potential incarceration.

The DCC is committed to both "rapid engagement" of anyone seeking care, and to creating a warm, welcoming, and trustworthy environment for care. Our peer support specialists and other staff are highly trained in the interpersonal, human dimensions of care.
